Re : Letter Of Reference

Dear Sir / Madam

I refer to Charlie G Designs and the various projects which Charlene and her team have taken on at Gallagher Convention Centre.

Charlene is professional, yet warm and engaging, and pays special attention to the needs of her client. She sticks to the brief and delivers the highest quality available based on the budget specifications.

Her design ideas and attention to detail are exceptional. She is able to project plan, cost, and keep within the specified time frames made available. Her work ethic and commitment to any project goes unsurpassed.

The Charlie G Design team who back her carry the same high standards and are willing to adjust or amend their situation to accommodate the client. She deals with the contractors on site and ensures that they too carry out her vision and work ethic. The work is of a very high standard and the prices are competitive in the market.

Client communication is key and all issues are dealt with efficiently and professionally.

We continue to use Charlie G Designs as we have no reason to want to use any other design team and we would highly recommend them for any project, private or commercial.

Yours sincerely

Charles Wilson

CEO – Gallagher Convention Centre
